

Program 39: Given input is Digit or Not

```
%{  
#include<stdio.h>  
%}  
  
%%  
  
[0-9]    { printf("Given input is a Digit\n"); }  
[a-zA-Z] { printf("Given input is an Alphabet\n"); }  
.  
    { printf("Given input is a Special Character\n"); }  
  
%%  
  
int yywrap()  
{  
    return 1;  
}  
  
int main()  
{  
    printf("Enter a character: ");  
    yylex();  
    return 0;  
}
```

Output:

```
C:\Users\SAIL\Downloads>digit.1  
Enter a character: 6  
Given input is a Digit  
  
g  
Given input is an Alphabet
```
